

I have listened and supported K-Love radio for over 8 years. Please do not replace them with an LPFM. I've watched them grow from a few stations to all across America. They obviously have a HUGE listener community. It is in the public interest to leave current FM translator service as it is and preserve K-Love Radio which has positive impact on so many people across such a wide age-range. Their service is of great value especially to families who have military loved-ones overseas. Please do not let LPFM take priority over the translators. Thank you!! Cheryl Wisdom and family
